Date

- Step 3: Then, we cancel two lines.

$$\begin{array}{r} 8 \\ -2 \\ \hline \end{array} \quad \boxed{\begin{array}{c} \times \\ | \\ | \\ | \\ | \\ | \\ | \\ | \end{array}}$$

- Step 4: Finally, we count the remaining lines and write.

$$\begin{array}{r} 8 \\ -2 \\ \hline 6 \end{array} \quad \boxed{\begin{array}{c} \times \\ | \\ | \\ | \\ | \\ | \\ | \\ | \\ 1 \ 2 \ 3 \ 4 \ 5 \ 6 \end{array}}$$

So, we can subtract any two numbers by drawing lines in either of the above two ways.

Pg no. 32.

★ Subtract by drawing lines.

$$\textcircled{1} \quad \boxed{8} - \boxed{7} = \boxed{1}$$

$$\boxed{\begin{array}{c} \times \\ | \\ | \\ | \\ | \\ | \\ | \\ | \end{array}}$$

$$\textcircled{2} \quad \begin{array}{r} 9 \\ -5 \\ \hline 4 \end{array} \quad \boxed{\begin{array}{c} \times \\ | \\ | \\ | \\ | \\ | \\ | \\ | \\ 1 \ 2 \ 3 \ 4 \end{array}}$$
