

Pen. no. \Rightarrow 60

Class \Rightarrow II

Chap 6

Sub \Rightarrow Math

\Rightarrow Step 3: Now, we borrow 1 ten (= 10 ones) from the tens.

After borrowing, 10 tens become 9 tens and 5 ones become 15 ones.

Now, we subtract the ones. $15 - 6 = 9$

Hundreds	Tens	ones
7	9 10	15
8	0	5
- 1	9	6
		9

Expanded form \Rightarrow $805 = 7$ hundreds 9 tens 15 ones
 $- 196 = 1$ hundred 9 tens 6 ones
9 ones

\Rightarrow Step 4: Then, we subtract the tens. $9 - 9 = 0$

Hundreds	Tens	ones
7	9 10	15
8	0	5
- 1	9	6
	0	9

Expanded form \Rightarrow $805 = 7$ hundreds 9 tens 15 ones
 $- 196 = 1$ hundred 9 tens 6 ones
0 tens 9 ones

\Rightarrow Step 5: Finally, we subtract the hundreds.

Expanded form

Hundreds	Tens	ones
7	9 10	15
8	0	5
- 1	9	6
6	0	9

$805 = 7$ hundreds 9 tens 15 ones
 $- 196 = 1$ hundred 9 tens 6 ones
6 hundreds 0 tens 9 ones

So, $805 - 196 = 609$
