

★ Borrowing (from tens) when ones is zero.

• Let us subtract 14 from 50.

• Step 1: Arrange the numbers.

Tens	ones
5	0
-1	4

• Step 2: Borrow 1 ten from 5 tens.

Tens	ones
4	10
<del>5</del>	<del>0</del>
-1	4

• Step 3: Subtract the ones.

Tens	ones
4	10
<del>5</del>	<del>0</del>
-1	4
	6

• Step 4: Subtract the tens.

Tens	ones
4	10
<del>5</del>	<del>0</del>
-1	4
3	6

So,  $50 - 14 = 36$

★ Subtract the following:
