

Storage Devices

* Answer the following question :-

Q1. What do you understand by storage?

Ans Storage means to keep or save something.

Q2. What is a pen drive?

Ans Pen drive is a small and very popular high capacity storage device.

Q3. Why do we need storage devices?

Ans If our computer is switched off all of a sudden, we shall lose our computer data as it is only stored temporarily. We therefore need devices which store data permanently so that it is not lost.

Q4. Where does a computer store data?

Ans i) Hard disk
ii) Floppy disk
iii) CD-ROM
iv) Pen drive
