Q.11. A milk depot sells 149572 L of milk in 4 months. What is its monthly sale? How much milk will it sell in one year?

Solu A milk depot sells in 4 months 149572 L

$$\begin{aligned} \text{" " " " 1 " } &= 149572 \text{ L} \div 4 \\ &= 37393 \text{ L} \end{aligned}$$

A milk depot ^{will} sell in 12 months (1 year)

$$\begin{aligned} &= 37393 \text{ L} \times 12 \\ &= 448716 \text{ L} \end{aligned}$$

Q.1. 6 players scored 69, 72, 81, 84, 52, 80 runs respectively. Find their average score.

Solu. Sum of Scored = $69 + 72 + 81 + 84 + 52 + 80$

$$\begin{aligned} \text{Average} &= \frac{438}{6} \\ &= 73 \end{aligned}$$
