

Differentiate between the following

<p>Melting The process in which solid changes into liquid on heating</p>	<p>Freezing The process in which liquid changes into solid on cooling</p>
--	---

<p>Melting The process in which solid changes into liquid on heating</p>	<p>Evaporation The process in which liquid changes into gas on heating</p>
--	--

<p>Melting The process in which solid changes into liquid on heating</p>	<p>Condensation The process in which gas changes into liquid on cooling</p>
--	---

<p>Freezing The process in which liquid changes into solid on cooling</p>	<p>Evaporation The process in which liquid changes into gas on heating</p>
---	--

<p>Freezing The process in which liquid changes into solid on cooling</p>	<p>Condensation The process in which gas changes into liquid on cooling</p>
---	---

<p>Evaporation The process in which liquid changes into gas on heating</p>	<p>Condensation The process in which gas changes into liquid on cooling</p>
--	---
