Q 14. A machine in a factory makes 598 toys every day. How many toys will it make in 18 weeks?

Solu. A factory makes toys everyday.
= 598

A factory makes toys 18 weeks =

$$18 \text{ weeks} = 18 \times 7$$

$$= 126 \text{ days}$$

Practice Time:- 7.3

Q 8. Use multiple of 10 to find the products:

1. 7×29

3) 8×99

Solu $7 \times (30 - 1)$ Solu $\Rightarrow 8 \times (100 - 1)$

$$= 210 - 7$$

$$= 800 - 8$$

$$= 203$$

$$= 792$$

Q 11. Multiply:

1. 35×35

Solu. The last digits of the product will always be $5 \times 5 = 25$

Multiply the 10's digit by its successor.

$$3 \times 4 = 12$$

$$35 \times 35 = 1225$$
